

Preannounced Discontinuance of KODAK VISION2 100T Color Negative Film 5212 / 7212

Kodak will discontinue its VISION2 100T 5212 / 7212 Color Negative Films by year end, 2010, or until inventory is depleted.

The overall performance of the new VISION3 200T Color Negative Film 5213 / 7213 is improved over VISION2 100T, resulting in an image structure of a low speed film and the versatility of a 200 speed film offering you the benefits of two films in one. VISION3 Color Negative Films provide extended highlight latitude and reduced grain in under exposure regions, with an overall look consistent throughout the VISION3 Film family. For additional information please contact your local sales representative.

The following items will be removed from the KODAK Motion Picture Products Price Catalog.
