

Chemical Analysis

KODAK Photographic Solution Chemical Analysis

Purpose

Chemical analysis of major chemical constituents in a Kodak-recommended photographic processing solution.

Benefits

- Analysis of major chemical constituents in photographic solutions recommended by Kodak
- Identification of deviations from aim values for constituents being analyzed

Recommended Procedures

After contacting Kodak, the customer must send the properly identified sample(s), in recommended shipping containers, to the agreed-upon Kodak facility.

Kodak Deliverables

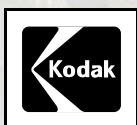

Kodak will provide a written report of the chemical analysis, including a reference to the proper standard aim (KODAK Publication H-24 or kit chemistry).

Estimated timeline for service to be completed: within 5 business days of receipt of sample, or other predetermined date.

Ordering Information

Cost varies depending on the chemical analysis requested. Contact your local Customer Service Representative for price and availability in your area.
