

New and Improved Usability Formats of KODAK KEYCODE Numbers Transfer Verification Film

Kodak is pleased to announce new and improved usability formats of KODAK KEYCODE Numbers Transfer Verification Film. KODAK KEYCODE Numbers Transfer Verification Film provides you a precise means to set up your reader system and verify the accuracy of your KEYCODE Numbers / time code transfers.

This film will help you:

- Determine if your system is reading KEYCODE Numbers accurately
- Calculate reader delays introduced by noise reduction, color correction, and other electronic systems
- Reestablish proper calibration and offsets following routine maintenance
- Verify that the reader system references are correct
- Check video editing systems for frame and field accuracy
- Verify that the correct frames have been digitized for nonlinear video editing systems and that the pulldown sequence is correct
- Check the accuracy of computer matchback software
- Prove to clients that your video dailies have the correct KEYCODE and time code numbers in the windows

The following listings will be included in the next update of the KODAK Motion Picture Products Price Catalog.
